*Book averages have been adjusted for the No-Tap Division based on the probability of higher average bowlers dropping 9-pins on the 1st ball (receiving a strike) than a lower average bowler. By increasing the average slightly, it gives the lower average bowler a better chance.

If a bowler's book average is 90 or under, the no tap average is the same as the book average.

It's a fun & exciting new twist on the normal duckpin game!
